

BWOOM...

~ SURPRISED

Ah, hello
there.

I am Eun-Hyeon-Seuk,
the author of *Dice*.

It wasn't planned,
but *season 3*
ended at exactly
200 chapters!

200

Thinking back, the
fact that I've been able to
keep doing this for four
years is all thanks to you,
the readers.

**Again, thank
you so much.**

A... and...

1/0/1/0/0

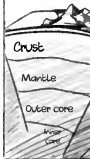

With me being
as slow as a
sweet potato,

And being constantly late on the Naver Books previews...

Speed: 0.1x

Earth - Fun. The word for "late" is the same as "crust".

I know it must have been frustrating for all of you, and I apologise...

I really meant to
maintain the pace, keep
a regular schedule,
and finish the season
on time...

But...

It just wasn't
enough.

Really, I'm so sorry
that I can't even
look up right now.

And so, once again, I
want to express my
thanks to my readers.

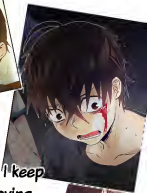

Thank you,
so much...!

... I know it's not
really an excuse,

But I think I've really
grown in the last four

years, in both the art
and the writing...

And if I keep
improving,

Someday I'll be able
to create a fun story

for you to enjoy.

I know I still lack a lot,
so please continue
sending feedback...!

Be it encouragement or
criticism, I consider it all
valuable feedback from
you readers.

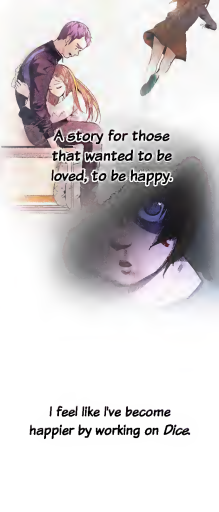

"Dice" is

**A story about want-
ing to be reborn,**

**wanting to become
someone else because you
hated yourself.**

**But in the end, having
to live with yourself, for
yourself and the people
around you.**

**A story for those
that wanted to be
loved, to be happy.**

*I feel like I've become
happier by working on Dice*

And I hope that my work
can make your days brighter,
be it for a few seconds.

With that in mind, I'll continue
putting in my all into this work

*Now, Dice is
about to start
its final season.*

*... Who will end up ob-
taining the Final Die?*

*Who will shape the
world to their will?*

*How will the
world change?*

...

***During this break, I'll
prepare to answer those
questions!***

Stay healthy!

TRANSLATOR NEEDED FOR SMALL EXTRA!

We need someone who not only knows Korean, but also knows digital graphic arts terminology in both Korean and English. There's one very interesting extra after chapter 179 in which the author explains his techniques. If we could understand it, maybe it would help our redrawers with their work on the final season. Unfortunately, though, our translators aren't versed in graphic arts lingo. The extra itself is short. If you would like to help, my email is splicer (dot) nil (at) gmail (dot) com.
